

9 Juen 1964

Memo for the R cord

Subject: Annual Report to the President's Foreign Intelligence Advisory Board.

25X1

1. In a conversation with [] at 1655 hours on this date

I asked him what if any guidance he was going to put out on this report.

He stated that as of this date he had not been able to get anything from

the Secretary of the Board. Also that the comments should be brief as

he expected that in pulling this report together for the DD/S that it would

not comprise more than 3 or 4 pages. That would mean that the subordinate

elements shouldn't put in a lot of filler.

2. In addition to not getting the requested guidance as to what

25X1

was wanted, [] stated that he would get out a memo to the DD/S elements

giving guidance so that we could all be reporting on the same areas or

projects rather than a hodge podge of what each element thought should go

in it. This guidance should reach us by Friday at the latest. This will

come out over Col White's signature.
